

WHEN YOUR CHILD HAS A BRAIN TUMOR YOU STOP CARING ABOUT FASTER INTERNET

THE 2018 Peer-Reviewed National Toxicology Program (NTP) Studies found:

CLEAR link between **NON-IONIZNG RADIATION**
(in bands used by mobile phones) and **BRAIN TUMORS.**

Over 10,000 studies have demonstrated adverse effects, from DNA damage to electrical interference in cells and all the way to harming insects and bees.

Government is looking up to official bodies with links to the telecom industry; they say current radiation levels are below their guidelines. Most independent scientists have expressed serious concerns, the public remains ignorant.

YOU CAN SAY YOU DIDN'T "BELIEVE" IT
BUT YOU **CAN'T SAY** YOU DIDN'T KNOW

Don't believe us. Research it: 5gappeal.eu #Stop5GUK
